HOW TO PREPARE AND SUBMIT AN ABSTRACT

It is important to carefully follow the instructions below. Incorrectly prepared abstracts will be rejected:

1. Abstracts should be prepared off-line in advance;
2. Prepare your abstract on a word processor (such as Microsoft Word);
3. Tables and figures are not allowed
4. References are not allowed
5. When abbreviations are used, spell out the full word at first mention in the text followed by the abbreviation in parentheses. Thereafter, use the abbreviation throughout.
6. When the on-line system requires the abstract to be entered, copy and paste your text, divided into the following sections: BACKGROUND-AIM, METHODS, RESULTS, CONCLUSION.

In case your text includes special characters (apex, subscript, Greek letters, etc.), please note that they should be inserted through the appropriate buttons which you can find in the online submission system.

7. Abstracts are limited to 2300 characters, spaces included (title, authors' names and affiliations excluded). The system will automatically notify you if the abstract exceeds this number of characters.
8. Title, author(s) and affiliation(s) must be added separately at the appropriate steps.
